Capital Project: Benefits For Municipal Sewer Installation

- Enables CBC to maximize the use of the main campus for the ministry purpose of connecting with and reaching our community for Christ.
 - Currently, open-grassy areas cannot be used due to the required amount of sewage fields necessary for our inground septic system.
 - Grass areas will be graded and utilized as athletic fields.
 - A fenced in field and play area adjacent to the WRC will be used for the preschool and community.
 - Unfinished areas upstairs in the WRC can be finished when funds are available.
- Eliminate the risk of a potential inground sewage system failure and take advantage of current easement requirements by the City of Raleigh.
- Increase the sewage capacity for the entire church to handle future expansion of our Weekday Preschool and other church ministries (recreation).
- Connect all buildings (Fellowship Hall, Office, and Chapel/Education Building) with city water & sewer.
- CBC will receive a \$100K gift from a foundation to build recreation fields and an annual gift to offset cost of staff/facilities to implement a recreation ministry.
