Bible Reading Plan for 2019

Statistics show that most people professing faith in Jesus have never completely read their Bible. Many start reading the Bible but then become overwhelmed by the number of chapters (1,189) and verses (31,102) there are. What we don't realize is that we can read the Bible in a year by reading fewer than four chapters a day.

We encourage you to review the many options that are available to you, to begin the New Year with a plan that will help you grow spiritually. Consider bringing others along for accountability and encouragement.
